

## MY CHILD HAS 1 OR MORE SYMPTOMS OF COVID-19. WHAT SHOULD I DO?

Was your child a close contact of someone who tested positive for COVID-19?

**YES**

- Everyone, including household members, should stay home & self-isolate. Get your child tested.
- If positive, notify your child's school. Toronto Public Health will follow up with further instructions.
- If negative the child still has to self isolate until cleared by Toronto Public Health (Close contacts need to isolate for 14 days). Household members can return to work/school as long as they do not have symptoms.
- If your child is not tested they need to self-isolate for 10 days. Household contacts will also need to stay home and self-isolate for 14 days.

**NO**

- Notify your child's school that they have symptoms.
- Your child should stay home, self-isolate & get tested.
- The student's siblings will also need to stay home and self-isolate until the child's test is negative. If the child is not tested, siblings need to stay home and self-isolate for 10 days.
- Adults in the home, including parents, will have to self-monitor for symptoms, but may go to work as long as the adult does not have symptoms.
- If the adult develops symptoms they need to stay home, self-isolate & get tested.

## MY CHILD HAS 1 OR MORE SYMPTOMS OF COVID-19. WHAT SHOULD I DO?

Was your child a close contact of someone who tested positive for COVID-19?

**NO**

What was the result of your child's COVID-19 test?

**POSITIVE**

- Let your child's school know that they tested positive for COVID-19.
- Your child must stay home & self-isolate for 10 days from the day symptoms started.
- Household members & close contacts must also self-isolate for 14 days.
- Toronto Public Health will contact you to do an investigation & will provide further instructions.

**NEGATIVE**

- Your child may return to school after it has been 24 hours since their symptoms started improving.
- Siblings can return to school right away.

**NOT TESTED**

- Your child must stay home & self-isolate for 10 days from the day the symptoms started.
- After 10 days, they can go back to school if their symptoms are improving.
- The student's siblings will also need to stay home and self-isolate for 10 days.
- Adults in the home, including parents, will have to self-monitor for symptoms, but may go to work as long as the adult does not have symptoms.
- If a health care provider has diagnosed a condition that isn't related to COVID-19, your child can return to school 24 hours after their symptoms improve. Their siblings are then not required to self-isolate for 10 days.
